

Submission to the Statutory Review Committee on *Access to Information and Protection of Privacy Act*

May 8, 2014 (11:18 AM)

An e-mail from Adam Case to the ATIPPA Review Committee

Subject: My suggestions for the new access to information

Hello

Find below my ideas for the updated access to information legislation.

1. Make sure that access is granted equally, no one group gets more access than another
2. Only refuse/redact request if the request itself could cause great harm. i.e. Emergency Preparedness
3. Make decisions regarding redaction/refusal of requests in a non-partisan way, an independent omission [*sic*]? privacy commissioner?
4. Ensure any hiring process is done with equitable way
